SUMMARY

Experienced DevOps Engineer with over 12 years in the IT industry, specializing in system administration and cloud technologies. Proficient in Unix and Linux systems, Kubernetes, and cloud platforms such as AWS, Azure, and GCP. Strong advocate of Infrastructure as Code, with a proven track record of optimizing cloud resources and implementing efficient CI/CD pipelines. Extensive experience working with international teams and delivering scalable solutions.

WORK EXPERIENCE

Tech Solutions Inc. - Senior DevOps Engineer

2018-Present

Led the migration of legacy systems to AWS, improving system reliability by 30%. Implemented Kubernetes clusters, reducing deployment times by 40%. Developed Infrastructure as Code scripts using Terraform, automating 70% of the provisioning process.

Global IT Services - DevOps Engineer

2014-2018

Managed cloud infrastructure across AWS and Azure, enhancing operational efficiency by 25%. Streamlined CI/CD pipelines, resulting in a 50% reduction in release cycle times. Collaborated with cross-functional teams to implement DevOps best practices.

Innovatech Solutions - System Administrator

2010-2014

Maintained Unix/Linux servers, ensuring 99.9% uptime. Automated routine tasks using shell scripts, saving 10 hours of manual work per week. Provided technical support for cloud-based applications, improving customer satisfaction by 20%.

SKILLS

Unix, Linux, Kubernetes, AWS, Azure, GCP, Terraform, CI/CD

EDUCATION

Indian Institute of Technology, Bombay

Bachelor of Technology in Computer Science

2006-2010

St. Xavier's High School

High School Diploma

2004-2006
